## ◀ INNOVATIVE ▶

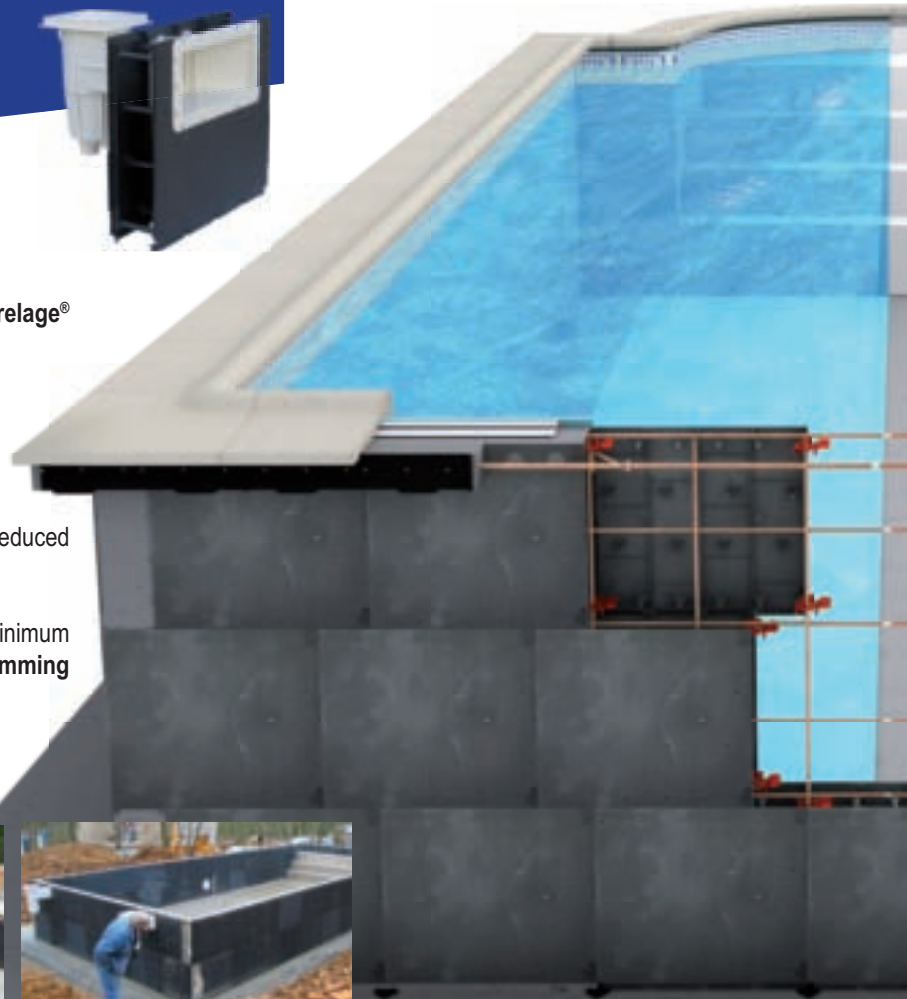

### SWIMMING POOL STRUCTURES

These patented formwork blocks **SolidPOOL® & SolidPOOL Carrelage®** allows building ponds:

- **with any type of finish:** tiles, liner, or reinforced PVC,
- completely or partially **above-ground** (roof, sloped ground...),
- **in restricted access zones** (lightweight material, easy storage, reduced concrete),
- **optimizing the usable surface** (freestanding, no struts = minimum excavation area), **ideal solution for small plots or indoor swimming pools.**

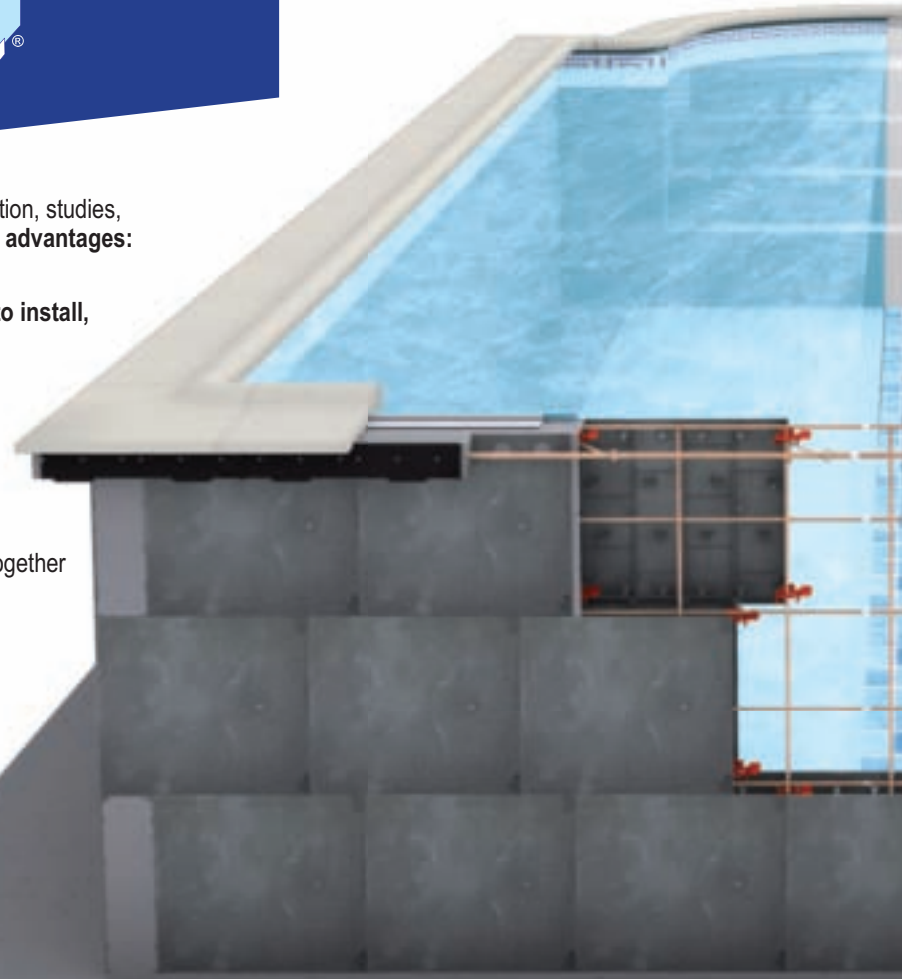

25 years of experience in aquatic swimming pool design and installation, studies, tests and research, **SolidPOOL® swimming pools have numerous advantages:**

- **Easy to assemble within the capability of every ' Self Builder' to install,**
- **Easy fittings (skimmer, return...),**
- **A simple iron framework,**
- **A limited volume of concrete,** installation with a regular cement mixer if possible,
- **An easy pouring:** the rigidity of the assembled structure requires only the minimum support (wedging),
- **A flexible installation procedure:** slab and walls can be poured together or separately ,
- **A quick and economic solution,**
- **Excellent stability,** freestanding, without struts,
- **Minimum excavation area** (possibility to integrate piping in the wall-structures),
- **A complete range equipments** (several varieties of staircases),
- **An ecologically friendly structure** of regenerated polypropylene,
- **A great result: solid, reliable and durable !**

# MOODY POOL®

These patented articulated pannels MoodyPOOL® allow very easily constructed pools:

- an unlimited choice of shapes and sizes (convex, concave, oval),
- in restricted access zones (lightweight material, easy storage),
- optimizing the usable surface (minimum excavation area), ideal solution for small plots or indoor swimming pools,
- with very few concrete.

25 years of experience in aquatic swimming pool design and installation, studies, tests and research, **MoodyPOOL®** swimming pools have numerous advantages:

- Easy to assemble within the capability of every 'Self Builder' to install,
- Almost no iron framework,
- Almost no concrete (only for slab, bottom and gutter),
- Easy fittings (skimmer, return...),
- A quick and economic solution, 2 hours to assemble 30 metres of structure,
- A flexible installation procedure,
- Minimum excavation,
- A complete range equipments (several varieties of staircases),
- An ecologically friendly structure of regenerated polypropylene,
- A great result: solid, reliable and durable !

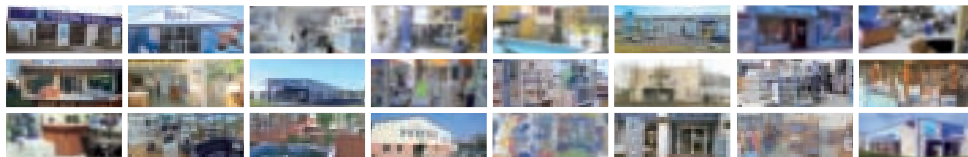

## Our Company ...

- a family-owned company, founded in 1951,
- **25 years of experience exclusively in the field of swimming pools,**
- **strong brand** recognition and a **network** of more than 50 stores in France,
- **operational organization** attending to the market,

- a dedicated team of qualified **technicians,**
- **innovative** products,
- **an efficient production factory,**
- a **strategically located** logistic platform in the middle of Europe.

- **state of the art** point of sale material including in house training programme. All point of sale material can be **personalized including traduction, insertion of your logo, etc...**
